HIGH SCHOOL,

Elmbank Street.

(Founded in the 12th century.)

The school is one of the oldest institutions of the city, but the exact date of its origin is unknown; it is certain, however, that it was in existence before the University, for in records prior to the foundation of the latter, the Doctor of the Grammar School is honourably mentioned.

THE ROYAL TECHNICAL COLLEGE, GLASGOW.

Under the title of the Glasgow and West of Scotland Technical College, the college as now constituted was established in 1886 by an Order in Council amalgamating several old institutions, notably Anderson's College, founded in 1796, and the first technical college in the kingdom; the College of Science and Arts, the successor of the first Mechanics' Institute; the "Young" Chair of Technical Chemistry and the Atkinson Institution. In February, 1912, His Majesty King George V. honoured the college by directing that in future it should be known as "The Royal Technical College, Glasgow." The College offers complete courses of instruction in pure and applied science, and is specially designed to give the most suitable education to students intending to enter an industrial profession or trade. The College is affiliated to the University of Glasgow and the Degrees of the University in Applied Science are open to its students. Although the complete course of study extends over at least three years, students are at liberty to enter for any less period. The instruction in both day and evening classes is made as practical as possible, and there are fully equipped laboratories in the departments of physics, chemistry, technical chemistry, dyeing, sugar manufacture, metallurgy, mechanics, mechanical engineering, electrical engineering (including wireless telegraphy), mining, geology, textile manufacture, biology, bacteriology, pharmacy and navigation. The museums contain several important collections, and the library consists of about 20,000 volumes, including many valuable works. A reading room is provided in which may be consulted the current issues of the principal scientific and technical journals. There are many valuable bursaries and scholarships in connection with the College.

The Leading Agricultural Journal in Scotland

THE NORTH BRITISH AGRICULTURIST

ESTABLISHED 1843.

Published every Thursday. ***Price Two Pence.***

The "NORTH BRITISH AGRICULTURIST" has now for many years stood at the head of the Scottish agricultural press. It is a thoroughly practical newspaper circulating chiefly throughout Scotland, the North of England and North of Ireland, as well as amongst Scottish agriculturists in foreign and colonial countries. Advertisers are reminded that it reaches the monied rural classes, and this, coupled with an exceptionally large circulation, makes it unrivalled as a medium for announcing any advertisements connected with the great agricultural industry in North Britain.

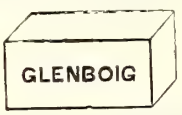
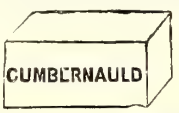
The Glenboig Company are the Sole Makers of the "GLENBOIG" and "STAR GLENBOIG" brands, which stand first among Fire Bricks, for the construction of all kinds of furnaces subjected to the highest heats and most sudden changes of temperature.

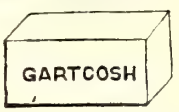
The use of these Bricks is found to be economical in districts of Englandwhere Fire Bricks are made and sold at half the price of the "Glenboig" brand; but how much more economical must they be when shipped abroad and where both qualities bear the same charge for carriage.

The "GARTCOSH" brand is largely used. The Company purchased these works for the purpose of meeting the demands of buyers who require a cheaper Fire Brick of good quality, and they offer it with confidence, knowing that it is unsurpassed by any other Fire Brick made in Scotland, excepting "Glenboig" alone.

All articles manufactured by the Company bear one or other of the undernoted Trade Marks—







Purchasers are recommended to see to it that the brand purchased is really stamped on the Goods, and not only on the lips or business paper of the seller.

GAS RETORTS—**The great number of Glenboig Retorts now in use in the principal Gas Works at Home and Abroad is the best evidence of the high estimation in which this brand is held by Gas Engineers, who know the importance of using "Retorts that can be depended upon."**

The Outram Group Covers All Scotland

The dominance of the Outram Group of Newspapers throughout the whole of Scotland is unchallenged. It comes from the high confidence which Scottish readers have learned to place in the publications issued by a house possessing the honourable tradition of over a century's experience in newspaper publishing.

THE GLASGOW HERALD

Established 1783.

The premier newspaper of Scotland, and the largest and leading advertisement medium out of London. "The Glasgow Herald" occupies a position of unrivalled power amongst the wealthy business and professional classes throughout the whole of Scotland.

THE EVENING TIMES

Certified Net Sales, 277,293 copies per day.

"The Evening Times" is the most popular Evening newspaper in Scotland. Its guaranteed net sales are far in excess of the combined circulation of any two other Evening Newspapers north of the Tweed.

THE BULLETIN

The only picture-paper published in Scotland. National advertisers who appreciate the value of the Pictorial Daily for appealing to women readers will find "The Bulletin" can produce results which will compare favourably with any similar publication in the United Kingdom.

GLASGOW WEEKLY HERALD

A high-class family newspaper, having a large and increasing sale amongst the middle and artizan classes.

The most enterprising National and Local advertisers appreciate the value of the "Glasgow Weekly Herald" for making an appeal to its large circle of week-end readers.
